

Feasibility Study
<p><b>Technical feasibility:</b> We check Resources like hardware, software, developer &amp; designer.</p> <p><b>Economical feasibility:</b> We will calculate the total cost of project. Can we hire people and technology in this budget?</p> <p><b>Legal feasibility:</b> Every country has rules for software development. e.g. islamic laws in Pakistan</p> <p><b>Operational feasibility:</b> how much easy product will operate. CAn the user properly use it?</p> <p><b>Schedule feasibility:</b> Is it possible to develop it in given time frame.</p>
